The

OPECU to post big loss in August - Kay!

For this issue, we're suspending the information about our convenient services to talk about an important service person who will "retire," officially on July 31 but still here until Aug. 18.

Back in April 1996, OPECU and its president made their best decision ever: They hired KAY MOLINSKI!

She has worked these past 21 years in most capacities in the credit union with friendliness, concern, and heart.

She ends her career with us as a Loan Officer, Financial Advisor, Person-who-backs-up-the-President, Decorator, Keeper of the Flowers, and holder of so many other jobs that she does so well.

A message from your CU president

To celebrate her wonderful multi-tasking for OPECU, the credit union has planned a "COOKIES with KAY" week Aug. 14-18.

Stop in to offer your thanks for her work and your good wishes for the next chapter in her life.

Don't be shy! Come say good-bye!

Thanks, Kay, for all the wonderful years and for being there for all of us.

We wish you many, many, many happy years of retirement!

Marianne Zarling newest member of board

It was business but fun, too, at our Annual Meeting April 29 at Primo.

During the short business portion, members elected a new board member, Marianne Zarling. Welcome!

Board officers also were elected. They are:

■ Jo Helf, Chairperson

- Dottie Brown, Vice Chair
- Ed Spanbauer, Secretary
- Nick Helf, Treasurer

During the fun portion, long-time members reconnected and members made new friends as well. All enjoyed a wonderful dinner for a nominal fee. We hope to see you there next year.

Using Mobiliti app? You may need OS upgrade

Do you have an older operating system on your phone or device that does not support TLSv1.2?

If so, you may have trouble connecting to Mobiliti, our mobile app, after June 25, 2017.

Those with an older TLS (Transport Layer Security) version will likely get a connection error when trying to ac-

cess Mobiliti (Mobile Money) on or after that date.

If you are unsure of what you have, call us and we will try to walk you through how to find it.

Unfortunately, we do not know how to help with an upgrade. Please contact your service provider regarding upgrades for this web privacy protocol.

We will let everyone know about the project as soon as we know.
