The

'Mobiliti' will keep your money mobile

When you talk with friends about all of the convenient services we have at OPECU, be sure to mention our phone service.

What phone service?

Let me tell you.

You already know about Virtual Bank or VB, our convenient online service, and how to navigate within it.

Within VB is "Mobile Money," also affectionately known as "Mobiliti."

It's our phone app that's not a phone app!

It's not an app like the kind you can get in the App Store. It is an application that will work on your phone once you have VB.

It needs VB, of course, because that's the service that picks up your balances, transactions, and such from OPECU.

So Mobile Money/Mobiliti is really our online banking service on your phone. It looks and works like any other banking phone service.

A message from your CU president

So how do you start enjoying this convenience?

First, belong to VB and then visit it at least once a month (*otherwise there is a \$5 non-user fee*).

Next, set up your cellphone number within VB for Mobiliti/Mobile Money.

It will work just like the online service, with THE SAME login, security code, phrase, and security questions that you have for VB.

It is the SAME as VB on the computer, just mobile -- all to be more convenient for you.

Want to know what's even better?

Because it's not a "store-bought" app, it never just sits on your phone where it can be compromised if the phone is lost or stolen. All your information remains secure.

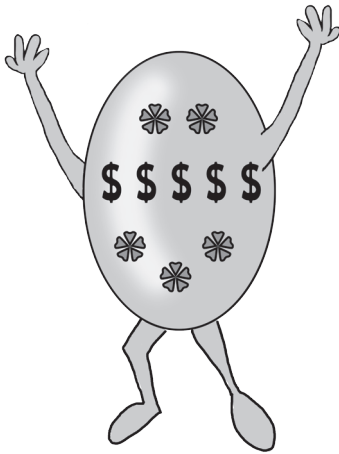

As always, if you have questions or concerns, contact us: your credit union.

► to all who contributed to our annual Hearts and Chains Campaign for the Children's Miracle Network of nonprofit hospitals. We had a bonus year with more than \$263 to donate to the local hospital in Neenah.

► to those who contributed to our Oshkosh charity: the Day by Day Warming Shelter. Our "Can You Spare Some Change" promotion brought money we could donate in your name.
